“The Communication Space: Sharing Cosmology with the World (and Beyond)”

Katie Mack, PhD

Assistant Professor
Department of Physics
North Carolina State University

Dr. Katie Mack is a theoretical astrophysicist exploring a range of questions in cosmology, the study of the universe from beginning to end. She is currently an assistant professor of physics at North Carolina State University, where she is also a member of the Leadership in Public Science Cluster. She is the author of the book "The End of Everything (Astrophysically Speaking)" and has written for a number of popular publications, such as Scientific American, Slate, Sky & Telescope, Time, and Cosmos magazine. She can be found on Twitter as @AstroKatie.

ABSTRACT

Learning about the cosmos and the natural world can inspire and delight audiences, and can be a gateway to a better understanding of science in general. I'll discuss strategies for science communication in the context of cosmology and our growing understanding of our place in the universe, as well as how people in all areas of science can share their expertise most effectively.

**Friday, September 3rd
12:00 Noon**

Presented From: 4142 Engineering Building III (NC State)
Videoconferenced to: 321 MacNider Hall (UNC)
& East Carolina University (ECU)
