Regenerative Medicine Strategies for Treating Muscle Disorders
2022 BME Qualifying Exam
9 am Feb 22nd to 9 am 24th, take-home
Exam given by Brian Diekman

Instructions:
• 4 papers will serve as the basis of the exam:
  o https://bme.unc.edu/graduate/why-choose-bme/phd-written-qualifying-exam/
  o You will need to refer to these papers during the exam
  o The exam questions may direct you to additional related resources
• If you are planning to take the exam, please sign up by contacting Vilma. She will give me a list of students who have signed up by noon on Feb 21.
• The exam itself will be emailed directly to students who have signed up at 9 am on Feb 22
• Save a copy of the exam Word document as First_Last_qual_2022
• Include your answers to each prompt throughout the document
• You are allowed to use any available electronic resources, but please do not request or receive any help from classmates, labmates, friends, professors, or anyone else!
• There are three sections:
  o Short answer: 10 questions x 6 points each
  o Experimental design: 2 multi-part questions x 20 points each
• Email finished exam to: bdiekman@email.unc.edu by 9 am on Feb 24
